Venue

Italy, a European country with a long Mediterranean coastline is famous for its landmark art and ancient ruins. In Italy, we preferred Milan as the perfect venue for our "2nd International Nursing And Primary Healthcare Conference" from 4th to 6th September, 2017, which is the most populous metropolitan area and the second most populous commune in Italy after its capital Rome. Other major cities in Italy include Florence, with Renaissance masterpieces Venice, the city of canals and Milan, Italy's fashion capital. In the year, 2000 Italy's healthcare system was regarded, by World Health Organisation's ranking, as the 2nd best in the world. Milan is the main industrial and financial center of Italy and it is one of global significance. The EURO is the official currency in Milan. The city is a major world fashion and design capital, well known for several international events and fairs, including Milan Fashion Week and the Milan Furniture Fair. Milan's museums, theaters, and landmarks (including the Milan Cathedral, Sforza Castle and Leonardo da Vinci paintings such as The Last Supper, a UNESCO World Heritage Site) attract over 9 million visitors annually. Milan's Cathedral, built between 1386 and 1577, is the fifth largest cathedral in the world and the most important example of Gothic architecture in Italy.
